

AY1603 Power supply

General

AP-AY1603 series power generator is one of the product series produced by Shanghai AP&T. It is assorted power generator for ionizing bar, ionizing air gun and ion bars produced by AP&T Company.

Warranty and After Sales Service

(1) AP-AY1603/2603 Power generators are strictly inspected before ex-work and match the entire related technical standard indicated in this manual.

(2) AP&T PROMISE : Repair or change any damaged parts caused by quality reasons free of charge within one year from the date of purchase after we confirm the quality issue.

(3) Above promise is not fit for the following situation : Alternation of the device, wrongly used, incorrect installation, abasement, negligence, and accidental damage, wrong input voltage, unpacking and repacking by user itself or maintain by other unauthorized service department.

(4) AP&T is free from any related responsibility of using the product except the parts specified here above.

Product Feature

(1) Over voltage,short circuit protection.

(2) Reliable and excellent performance.

(3) Easy to operate and strong environment suitability.

(4) Fast unloading connector and easy to install.

(5) With different specifications and fit for different products.

Specification

Model	AP-AY1603
Input voltage	AC220V/50HZ 110V/60HZ
Working voltage	AC4000V
Power	20W
Working temperature	-10°C ±50°C
Working humidity	< 85%RH
Net weight	2850g (AP-AY1603)
Gross weight	3350g (AP-AY1603)
Dimension	157x119.5x103mm (AP-AY1603)

Use and Installation

1.Installation guide

1. Insert the power cord to the socket on the back side of the generator cabinet.
2. Connect the high pressure end and earth connection end of the generator and the assorted device with high pressure cord.
