

AP&T®

Power Supply AY2503

General

AP-AY1503/2503 series power generator is one of the product series produced by Shanghai Anping Static Technology Co.,Ltd. It is used to supply power to AP&T products such as ion bar, ionizing air gun and ionizing air snake etc.

Features

- (1)Over voltage,short circuit protection.
- (2)Working under high voltage and micro current
- (3) Easy to operate and strong environment suitability.

(4) Fast unloading connector and easy to install.

(5) Reliable and excellent performance.

Specification

Model	AP-AY1503/2503
Input voltage	AC220V/50Hz or AC110V/60Hz
Output voltage	AC3500V
Power	20W
Working temperature	-10°C—+50°C
Working humidity	<85%RH
Net weight	2850g(AP-AY 1503)
	5300g(AP-AY 2503)
Gross weight	3350g(AP-AY1503)
	5800g(AP-AY2503)
Dimension	157*119.5*103(L*W*H)(AP-AY1503)
	232 *156 * 117(L*W*H)(AP-AY2503)

Installation & Maintenance

(1) Insert the power plug into city power socket.

(2) Insert the HV plug on the bar body into the HV output connection on power supply.

(3) Connect the ground end on the bar body to the ground bolt on the power

(4) Switch on the power

Safety

The input working power of generator cabinet (220V AC) must with reliable earth connection.

Do not use the device in an environment with humidity > 85%.

Do not use this device in the flammable and explosive surrounding.

Internal maintenance and repairing must be done by professional engineers.

Warranty and After Sales Service

AP-AY1503/2503 Power generators are strictly inspected before ex-work and match the entire related technical standard indicated in this manual.

AP&T PROMISE:Repair or change any damaged parts caused by quality reasons free of charge within one year from the date of purchase after we confirm the quality issue.

Above promise is not fit for the following situation:Alternation of the device, wrongly used, incorrect installation, abasement, negligence, and accidental damage, wrong input voltage, unpacking and repacking by user itself or maintain by other unauthorized service department.

AP&T is free from any related responsibility of using the product except the parts specified here above.

Maitenance

Stop using the device when red indicator turns off on power supply. Re-use the device only after checking and repairing by professionals.

Packaging & Shipping

Payment Term	T/T, L/C, West Union, Paypal
Delivery Time	7 to 10 days after confirm the order
Warranty	1 years after delivery
Package	Carton

Our Services

AP&T brand series products include ionizing air blower, ionizing air gun, ion bar, ion nozzle with various specifications are wildly used in semi conduct, encapsulation, opto-electrical, electronics, communication, spray finishing, printing, textile, pharmaceutical equipments, construction material, injection molding industries. OEM and ODM are available for all the ESD products.

About us

About Anping

Shanghai Anping Static Technology Co.,Ltd was established in 1999 which is the first Hi-Tech enterprise researching and manufacturing DC ionizer in China.

Our AP&T brand series products include ionizing air blower, ionizing air gun, ion bar, ion nozzle with various specifications are wildly used in semi conduct, encapsulation, opto-electrical, electronics, communication, spray finishing, printing, textile, pharmaceutical equipments, construction material, injection molding industries. Our products have won good reputation of our users and have been exported to Japan, Korean, South East Asia, Europe , North and South America.

As councilman of China Electronics Industry Association Anti-static Equipment Branch, we devote our efforts in providing comprehensive perfect solution of static control and eliminating and serve our customers with our strong technical strength and rich industry experience. We are ready to supply you over valued products and technology. We'll be your reliable partner in ESD field.

Why choose us

- A. 20-year's experience in static industry.
- B. Customers from more than 120 countries.
- C. Successful cases from dozens of countries.
- D. Professional team offers technical support to customers.
- E. 24hours online services from our professional
