Details:

The Benchmark Scientific BT1010-E Orbi-Shaker XL offers flask capacity that far exceeds that of most bench top models. With a large 18 x 18 inch platform and a powerful, belt-less motor drive, the Orbi-Shaker XL is capable of mixing up to five 2L flasks or nine 1L flasks simultaneously. The BT-1010-E includes a non-slip rubber mat platform is ideal for low speed applications, while the convenient MAGic Clamp™ platform is also available for high speed mixing of Erlenmeyer flasks, tube racks or micro plates. The MAGic Clamp™ accessories allow for instant flask clamp exchange without the use of tools, screws or any other hardware.

Included:

- **1 - Flat non-slip mat**
- **1 - User Manual**
