

## CP-09

### **Smaller sized, convenient-to-use AC current Clamp-on Adaptors**

CP-09 is the ideal tool to extend the current ranges for all Multimeters. The CP-09 is a 200A AC current clamp-on Adaptor with voltage output via a standard banana inputs to be connected to multimeters.

### Specifications

Function	Range	Output	Sensitivity	Basic Accuracy
Current AC	200A	1mV/A	1A/mV AC	±2%
0.7" (18mm) Clamp jaw opening				

**Size (H x W x D): 80mm x 66mm x 31mm**

**Weight: 80g**

### Applications

The image shows a blue CP-09 AC current clamp-on adaptor. It has a blue plastic handle and a grey metal clamp. A CE mark is visible in the top right corner. Two test leads, one red and one black, are connected to the bottom of the device.

**Smaller sized, convenient-to-use AC current Clamp-on Adaptors**  
CP-09 is the ideal tool to extend the current ranges for all Multimeters. The CP-09 is a 200A AC current clamp-on Adaptor with voltage output via a standard banana inputs to be connected to multimeters.

The image shows a yellow digital multimeter with a display showing 0.335. The multimeter is connected to the CP-09 adaptor, which is clamped around a wire. The multimeter has a red and a black test lead connected to its banana inputs.

**Accessories:** Test leads and clamshell
