

## DT-73L

DT-73L Light meter is a precision instrument that used to measure illuminance(Lux,footcandle) in the field.

Specifications			
	Range	Accuracy	Resolution
Illumination Measurement	0-200kLux/ 0-20kFC	$\pm 4\% \pm 10d$ (<10,000Lux) $\pm 8\% \pm 10d$ (>10,000Lux)	0.1Lux/0.01FC

#### Features

- Silicon Photo Diode Sensor with a Spectral Response Filter Fully Cosine Corrected.
- 4 Measuring Ranges
- High accuracy and rapid response
