

LA-1013

Amplifier Probe

Insulated inductive probe tip prevents shorting conductors

Tests include wire trace, continuity test, clear/busy/ringing line test and tip/ring identification

Alligator clips for non-terminated cables and modular connectors for direct connections to telephone and internet wiring

Selectable continuous or variable tone generation

Built-in speaker on probe with sensitivity control

EMC
EN: 61326

Features
Insulated inductive probe tip prevents shorting conductors
Tests include wire trace, continuity test, clear/busy/ringing line test and tip/ring identification
Alligator clips for non-terminated cables and modular connectors for direct connections to telephone and internet wiring
Selectable continuous or variable tone generation
Built-in speaker on probe with sensitivity control

Size (H x W x D): 231mm x 56mm x 27mm

Weight: 270g

Applications

Amplifier Probe

Insulated inductive probe tip prevents shorting conductors

Tests include wire trace, continuity test, clear/busy/ringing line test and tip/ring identification

Alligator clips for non-terminated cables and modular connectors for direct connections to telephone and internet wiring

Selectable continuous or variable tone generation

Built-in speaker on probe with sensitivity control

Accessories: 9V battery and clamshell
