# DST-30 Solar-energy Digital Thermometer

Solar–cell power supply without battery; sealed and water–proof, suitable to use in damp environment; wide temperature measuring range; strong anti–interference. Used in fridge, refrigeration cabinet and display cabinet.

◇ Product size: 66 × 30 × 11.6mm

◇ Installing hole size: 59.5 × 26mm

◇ Temperature measuring range：–58℉ ~ +176℉

　(With special sensor, the measuring range can be –58℉ ~ +302℉)

◇ Resolution：0.1℉

◇ Accuracy：±2℉(–4℉ ~ +176℉), at other ranges, ±4℉

◇ Sensor length：1m

◇ Power supply：Solar–cell

◇ Operation environment: Illumination: ≥100Lux

　Temperature：–4℉ ~ +140℉

◇ Indication of exceeding temperature measuring range:

　When temperature is higher than +302℉, LCD displays –––.–℉

　When temperature is lower than –58℉, LCD display –––.–℉

◇ Safe level: IP68
