

PHOTO-2000AH AUTOMATIC LEVEL ILLUMINANCE METER

PHOTO-2000AH automatic level Illuminance Meter offers accurate and convenient measurement of horizontal illuminance of angled surface. Because of the good performance such as small size, portability, low power consumption, high accuracy, and wide measuring range, it is especially widely used for field testing.

Model	PHOTO-2000AH
Function	Illuminance(lux), Illuminance difference, Illuminance ratio(%) Integrated illuminance(lux·h), Average illuminance(lux)
Detector	Silicon optical device
V(λ) matching error	$f_1' \leq 5\%$ (class 1) or $f_1' \leq 3.5\%$ (class standard)
Illuminance Range	0.1lux ~ 20klux (Four ranges of automatic range switching)
Accuracy	$\pm 4\%$ (according to JJG245-2005)
Holding function	Holding the readings, easy to read
Configurations	Host, detector, battery, bag
