

# JJ-1 Electric Laboratory Stirrer, Mixer

## Basic Info

- Model NO.: JJ-1
- Material: Iron
- Iron: Electric Motor
- Specification: CE, ISO13485/9001/14001
- HS Code: 8479820090
  
- Usage: Mixing
- Reactant State: Liquid
- Trademark: JY
- Origin: China

## Product Description

The DC constant speed power-driven stirrer has sound design and novel structure. Adopting DC brushless motor and step-less speed governing with a stabilizing system, it has advantages of high power, low noise, and easy operation, and is a basic equipment for mixing chemical reactions with various kinds of liquid phases in laboratories in all universities, colleges, scientific and research institutes and chemical plants.

Specifications of JJ-1 Laboratory Stirrer	
Power Supply	AC 220V 50Hz/60Hz
Stirring Speed	Startup-2400rpm. step-less speed regulation
Motor Power	25W 40W 60W 80W 100W 150W 200W 300W
Timer	0-120min
Weight	10kg
Simple and sense appearance, easy to operate, reliable
