

Distinctive "performance" and "design"
The leader of 4th-generation digital testers

KMT

► Summary

The tester is to compare before and after testing by imposing temperature, humidity or other environmental changes to the product or specimen to be tested.

This Test aims to identify and systemize various kinds of effects in the physical and chemical conditions that may occur during seasonal changes and transportation and applying them to products.

► Feature

It is widely used for chemical analysis and measurement of physical constants from room temperature to high temperature or low temperature, and culture of bacteria. Circulator is attached to fit for use.

KTC-105 / Constant Temperature Water Bath / Pressure

■ DETAILED INFORMATION

► Specification

Power : AC220V, 1 Ph

Temperature Range : RT ~ 95°C

Humidity Capacity : 3kW (Subject to change)

Agitation motor : 90w

Temperature Control : PID, DX series

Inner material : SUS 304 / 1.2t

Size : 500(W) * 500(D) * 500(H) mm

► **Application**

Products that require keeping constant temperature
