

Cat.No.7610-20.

Aneroid Barometer with Glass Thermometer

An authentic barometer used for meteorological observations. You can easily find the variation of air pressure with the reference pointer. Its classical design with the brass frame makes a great interior decor.

Specifications

Measuring range	930 to 1070 hPa / 700 to 800 mmHg
Min. graduation	1 hPa / 1mmHg
Accuracy (at 15 to 30°C)	±1 hPa at 980 to 1020 hPa ±3 hPa at other than above
Thermometer	Glass thermometer Range: -10 to 50°C Min. graduation: 1°C Accuracy: ±2°C at 0 to 40°C
Material of case	Brass
Dimensions & Weight	Ø158 x (D)50 mm, approx. 0.69 kg
Accessory	Test result
