

Cat.No. **7730-00**

Hand Held Combination Anemometer

It consists of 3-cup anemometer, counterbalanced vane and indicator. 2m cable is attached for remote measurement.

Specifications

System	Wind speed: Cup-generation system Wind direction: Counterbalanced vane type
Measuring range	Wind speed: 2 to 30 m/s Wind direction: 360°
Accuracy	Wind speed: within ± 1 m/s at less than 10 m/s, within $\pm 10\%$ at more than 10 m/s Wind direction: $\pm 5^\circ$
Min. graduation	Wind speed: 1 m/s Wind direction: 8 compass points and 10°
Starting wind speed	1.5 m/s
Outer dimensions	(W)360 x (H)351 mm
Weight	Approx. 1.5 kg
Component	Wind speed generating section, wind speed indicating section, wind direction indicating section
Standard accessories	Remote measuring cable 2 m, carrying case
