

Pen-Type Thermometer with alarm

Made in the UK 

Description

This easy to use pen-type thermometer with alarm is ideal for measuring the temperature of liquids and semi-solids.

It features an alarm that rings when the target temperature set by the user, is reached or exceeded.

This sensor has a built in 15mm wide LCD display with a standard 4mm \varnothing x 145mm sheath with pointed tip that is ideal for liquid and semi-solid measuring.

For best results ensure the tip is 10mm immersed in to the application as the sensor is located in the bottom 10mm.

Features

- -50 to 300°C temperature range
- Audible alarm
- Supplied with probe cap and battery
- Pointed penetration tip

Application

- Food & Beverage testing
- Dry Goods
- Laboratory

Specification

Product	Pen-Type Thermometer with Alarm
Range	-50 to 300°C
Probe Length	145mm (Pointed Tip)
Power	1 x 1.5V Button Cell Battery (APL-13)
Dimensions	240 x 30 x 20mm (Unit) 145 x 4mm \varnothing
Resolution	1°C
Weight	36g
Accuracy	$\pm 1^\circ\text{C}$ (-10° to 100°C), $\pm 2\%$ (200° to 300°C)
Part Number	IHPTT
