## WÖHLER A 550 L / 550 FLUE GAS ANALYZER

Flue Gas Analysis at the tip of a finger.

*The Measure of Technology*

Made in Germany

# Wöhler A 550 L / 550 Flue Gas Analyzer

## Flue Gas Analyzer with all measurement functions

As easy to operate as a smartphone – that's what Wöhler's Flue Gas Analyzer feels like in your hand. Appropriately, the advantages are equally substantial: A tip with your finger on the Wöhler A 550 L/A 550 is all that is required to perform analyses, inspections and settings in accordance with EN 50379. The robust Wöhler A 550 Flue Gas Analyzer offers a variety of measurements e.g. Efficiency-, Emission-, Supply Air-, CO Ambient- and Wood Moisture Testing. The outstanding performance of the analyzer is approved and certified by international test house like TÜV and CPA.

No matter how you look at it, the Wöhler A 550 L / 550 Flue Gas Analyzer is a "nifty piece of equipment": The individual functions can be called up as intuitively as using a smartphone via the large 7" color touchscreen. And the brightly lit monitor can be read anywhere. The generously dimensioned screen and the clearly arranged readings are an absolutely ideal basis for proper analysis of a burning process.

### "Smart" handling features

Acquiring measurement values is as easy as could be. The analyzer is equipped with magnets, so you can attach it to the housing of the heater or boiler – and your hands are free to work. The probe is equipped with an additional start/stop button (Wöhler A 550 only) to start or stop measurement readings. There are a generous number of interfaces available to transfer data: USB, infrared and Bluetooth®. The Wöhler A 550 Flue Gas Analyzer with Bluetooth® feature can be used with the Wöhler A 550 APP INT for Android smartphones or tablets. For communication with computers and notebooks Wöhler offers a professional software program. Printing out the results on site is possible with the Wöhler TD 100 Thermal Fast Printer.

ler – and your hands are free to work. The probe is equipped with an additional start/stop button (Wöhler A 550 only) to start or stop measurement readings. There are a generous number of interfaces available to transfer data: USB, infrared and Bluetooth®. The Wöhler A 550 Flue Gas Analyzer with Bluetooth® feature can be used with the Wöhler A 550 APP INT for Android smartphones or tablets. For communication with computers and notebooks Wöhler offers a professional software program. Printing out the results on site is possible with the Wöhler TD 100 Thermal Fast Printer.

1) Except for thermocouples, rechargeable batteries and special sensors; for further information please see our Terms and Conditions

- ▶ 7" color touchscreen as intuitive to use as a smartphone
- ▶ 48 month warranty<sup>1)</sup> on the analyzer and sensors – without maintenance contract
- ▶ Including wood moisture measurement and spillage test
- ▶ Probe and hose assembly with start/stop function (Wöhler A 550 only) for remote analyzer operation
- ▶ Multiple communication capabilities including smartphones and tablets

**Easy to use with a clear design**  
The Wöhler A 550 offers you the highest level of working convenience.

**Robust and wear-resistant by design**  
The Wöhler A 550 Flue Gas Analyzer with protective hinged lid.

**Large 7" color Touchscreen**  
All results of measurement at a glance – Use the large, clearly arranged color touchscreen to explain the results.

**Wood Moisture Measurement**  
Optional probe available for wood moisture measurement.

**Spillage Test**  
Optional probe available to test for back-draught conditions in the chimney.

## ✂ Application

- ▶ Up to 4 sensors (Wöhler A 550 only)
- ▶ 4 Pa supply air test (Wöhler A 550 only)
- ▶ Changeable probes for a variety of measurement tasks (Wöhler A 550 only)
- ▶ Check for back-draught conditions in the chimney
- ▶ Optional probe for wood moisture measurement

## ⚙ Functionality

- ▶ Simple to use: Switch on – read off – done
- ▶ Large, color touchscreen: Displays up to 14 values at a glance
- ▶ Intuitive operation: What you see is what you get
- ▶ Instant measurement with 3 pump technology (Wöhler A 550 only)
- ▶ Graphical core flow search
- ▶ 48 month warranty without maintenance contract<sup>1)</sup>

## 🔧 Safety / Reliability

- ▶ Effective condensate protection
- ▶ Automatic CO clean out pump protects CO sensor (Wöhler A 550 only)
- ▶ 5-filter-technology – easily accessible
- ▶ Analyzer and sensor diagnostics
- ▶ Field-replaceable sensors
- ▶ Rechargeable battery operating time: more than 12 h with Lithium Ion power
- ▶ Hose assembly – robust and flexible

## 📁 Data management

- ▶ 1.000 measurement records
- ▶ Compatible with the Wöhler A 550 APP for Android
- ▶ Data transfer via USB, Bluetooth® or infrared

## 📄 Approvals

- ▶ EN 50379 Part 2, VDI 4206

<sup>1)</sup> Except for thermocouples, rechargeable batteries and special sensors; for further information please see our Terms and Conditions

Technical data	
Display	7" Color touchscreen
Sensors	up to 4
O <sub>2</sub>	0.0...21.0 vol. %
CO	0...4,000 vol. ppm
	0...35,000 vol. ppm
	0...100,000 vol. ppm
NO	0...3.000 ppm
Power Supply	Lithium-Ion, rechargeable battery 3.7 V, 5800 mAh, charges via USB
Safety	5-filter-technology – easily accessible
Weight	1,250 g
Detailed technical data can be found under <a href="http://www.woehler-international.com/P_127.dl">www.woehler-international.com/P_127.dl</a>	

### Peltier Cooler

Remove condensate from the sample gas for long-term measurements.

### Wöhler A 550 APP INT (Android)

Evaluate the results directly on your smartphone or tablet and export data to Excel or as PDF document.

### Start-/Stop-Button on the probe handle

When measuring in difficult conditions, you can also simply stop and save the measurement at the press of the button on the probe handle.

### CHP Filter

To protect the analyzer from heavy dust loads and condensate.

### Coarse Filter

The first out of 5 filters to remove dust and protect the analyzer.

### Condensate Status always in view

The bright blue condensate trap is serviced in no time at all and without any difficulty.
