

Wuhan XC/TC Control Cabinet/Console

I. Introduction

This product is special corollary equipment for our AC hipot testers. The operation cabinet is convenient to use, safe, reliable, strong and durable, with high performance, beautiful outlook, easy to carry. Necessary equipment for supply companies, large factories, metallurgy, power plants, railways and other required electrical maintenance department.

II. Features

1. Monitoring function: output current, meter voltage, timing.
2. Protection function: over-current function, time relay.
3. Wide timing range.
4. New current relay, more accurate, more reliable, ensure the person and instrument safety.
5. Reasonable structure, small size, light weight.

III. Parameters

Technical parameters

Temperature	0~40°C
Altitude	< 2000m
Relative humidity	< 85%

Main Specifications

Model	Capacity	Power			Output		Operation	Weight	Remark
		Phase	(V)	(A)	(V)	(A)			
XC-2/220	2	1	220	50	0-220	10	Manual	14	
XC-3/220	3	1	220	50	0-220	15	Manual	16	
XC-5/220	5	1	220	50	0-220	25	Manual	18
